DARIA PIDHORODETSKA

dpidh001@ucr.edu — planetdaria.org

EDUCATION

University of California, Riverside — Riverside, CA
Doctor of Philosophy in Earth and Planetary Sciences — September 2020 - Present
Advanced to Candidacy — June 2022
Expected Graduation — June 2025

Salisbury University — Salisbury, MD
Bachelor of Science in Biological Sciences — August 2014 - December 2017

RESEARCH EXPERIENCE

Earth & Planetary Sciences Department, UC Riverside — September 2020 - June 2025
Advisors: Eddie Schwieterman, Stephen Kane
Understanding Biosignatures in the Context of Exoplanet Atmospheres

- Using 3D global circulation models (GCMS) to simulate terrestrial exoplanet atmospheres and connecting these results to spectral simulations.
- Assessing the detectability of spectral features with ground- and space-based telescopes to plan for future observational missions.
- Conducting exoplanet observations to determine planetary mass measurements with the HIRES instrument at the Keck Observatory.

Planetary Systems Lab, NASA Goddard Space Flight Center — March 2018 - August 2020
Advisors: Thomas Fauchez, Geronimo Villanueva, Elisa Quintana, Shawn Domagal-Goldman
Detection and Characterization of Terrestrial Exoplanets and their Atmospheres, Data + Modeling

- Simulated the feasibility of detecting and characterizing terrestrial exoplanet atmospheres with analysis via radiative transfer models.
- Used the 3-D Global Climate Model ExoCAM to constrain the parameter space of the habitable zone.
- Performed optical photometry with Kepler/K2/TESS datasets in addition to the use of planet finding and validation software for light curve creation.

Department of Biological Sciences, Salisbury University — September 2016 - December 2017
Advisor: Eugene Williams
Synthesis of Lipids and Analysis of their Chirality in the Context of Astrochemistry

- Developed a methodology to study lipid chirality in the context of astrochemistry/astrobiology. Responsible for preparing, storing, and performing multiple tests such as freeze/dry cycles on a variety of lipids, as well as deciding which lipids to use to maintain the scope of the project.
- Used various teaching methods including the development of a hardbound manual and one-on-one demonstrations to train new students to continue the project upon graduation.

HONORS AND AWARDS

RHG Exceptional Achievement for Science Award, NASA 2022

Honorable Mention, National Science Foundation Graduate Research Fellowship Program 2022

Dean's Distinguished Fellowship Award, University of California, Riverside 2020

GradEdge/JumpStart Summer Diversity Award, University of California, Riverside 2020

Dean's List, Salisbury University 2017

Delegate Scholarship, Maryland Higher Education Commission 2016

FIRST-AUTHORED PUBLICATIONS

Pidhorodetska, D., Schwieterman, E.W., Fauchez, T.J., Turbet, M., Submitted
High CO_2 Climates and Observables in the Outer Habitable Zone (OHZ)

Pidhorodetska, D., Kane, S.R., Gilbert, E.A., Barclay, T., Polanski, A.S., Hill, M. L., et al. Sept 2024, AJ (https://iopscience.iop.org/article/10.3847/1538-3881/ad6901)
The TESS-Keck Survey. XXII. A sub-Neptune Orbiting TOI-1437

Pidhorodetska, D., Moran, S.E., Schwieterman, E.W., Fauchez, T.J., Quintana, E.V., et al. Oct 2021, AJ (https://iopscience.iop.org/article/10.3847/1538-3881/ac1171/meta)
L 98-59: a Benchmark System of Terrestrial Planets for Future Atmospheric Characterization

Pidhorodetska, D., Fauchez, T.J., Villanueva, G.L., Domagal-Goldman, S.D., Kopparapu, R.K., Aug 2020, ApJ (https://doi.org/10.3847/2041-8213/aba4a1)
Detectability of Molecular Signatures on TRAPPIST-1e through Transmission Spectroscopy Simulated for Future Space-Based Observatories

CO-AUTHORED PUBLICATIONS

Chontos et al. inc. **Pidhorodetska, D.** Submitted (https://arxiv.org/abs/2402.07893)
The TESS-Keck Survey XXI: 13 New Planets and Homogeneous Properties for 21 Subgiant Systems

Brinkman et al. inc. **Pidhorodetska, D.** Submitted (https://arxiv.org/abs/2410.00213)
The Compositions of Rocky Planets in Close-in Orbits Tend to be Earth-Like

Van Zandt et al. inc. **Pidhorodetska, D.** Submitted
The TESS-Keck Survey XXIV: Outer Giants may be More Prevalent in the Presence of Inner Small Planets

Barclay et al. inc. **Pidhorodetska, D.** Accepted, AJ (https://arxiv.org/abs/2301.10866)
The transmission spectrum of the potentially rocky planet L 98-59 c

Isaacson et al. inc. **Pidhorodetska, D.** Oct 2024, ApJS

FUNDED PROPOSALS

PI, Future Investigators in NASA Earth and Space Science and Technology (FINESST) 2022
High CO_2 Climates and Observables in the Outer Habitable Zone

Co-Investigator, HST-GO-16448 (8 Orbits) 2020
Confirming a Tentative Detection of an Atmosphere Around a Potentially Rocky Planet, PI: T. Barclay

Co-Investigator, HST-GO-959 (20 Orbits) 2019
Searching for Secondary Atmospheres in a System of Benchmark Worlds, PI: T. Barclay

INVITED TALKS

Geneva Observatory Laboratory Seminar, Geneva, Switzerland September 2019
From Climates to Biosignatures: Comparative Planetology within the TRAPPIST-1 System

Salisbury University Department of Biological Sciences Seminar September 2019
The Search for Life Beyond our Solar System: How NASA is Taking on its Greatest Challenge Yet

CONTRIBUTED TALKS AND POSTERS

Exoplanets 5 Conference, Leiden, Netherlands (Poster) June 2024
High CO_2 Climates and Observables in the Outer Habitable Zone (OHZ)

Astrobiology Science Conference, Providence, RI (Talk) May 2024
High CO_2 Climates and Observables in the Outer Habitable Zone (OHZ)

Astrobiology Graduate Conference, San Diego, CA (Poster) July 2023
L 98-59: A Benchmark System of Terrestrial Exoplanets for Future Atmospheric Characterization

AAS Winter Meeting, Virtual (Talk) January 2021
L 98-59: A Benchmark System of Terrestrial Exoplanets for Future Atmospheric Characterization

Planets 2020 Meeting, Santiago, Chile (Poster) March 2020
Detectability of Habitability Signatures on TRAPPIST-1e Simulated for Future Space-based Observatories

Exoplanets in our Backyard Meeting, Houston, TX (Poster) February 2020
L 98-59: A Benchmark System of Terrestrial Exoplanets for Future Atmospheric Characterization

AAS Winter Meeting, Honolulu, HI (Poster) January 2020
Diversity of Exoplanets with LUVOIR I: Optical and NIR

DPS/EPSC Joint Meeting, Geneva, Switzerland (Talk) September 2019
Detectability of Habitability Signatures on TRAPPIST-1e with Future Space-based Observatories

Astrobiology Science Conference, Seattle, WA (Talk) June 2019
Detectability of Habitability Signatures on TRAPPIST-1e with Future Space-based Observatories

TRAPPIST-1 Conference, University of Liege, Belgium (Talk) June 2019
Detectability of Habitability Signatures on TRAPPIST-1e with Future Space-based Observatories

AGU Fall Meeting, Washington D.C. (Poster) December 2018
Impact of Background N_2 Pressure on the Habitability of Tidally Locked Rocky Exoplanets Around Cool Stars
